- I study thoroughly through online courses , documentations and blogs for 7 months

Description

- After graduating with degree in Computer Engineering, I decided to pursue my passion for programming. I started taking courses in coding and problem solving and learnt full stack web development. I have developed more than 15 personal projects where accumulate experience in developing web_applications. I am always eager to expand my skills and knowledge. My favorite part of programming is the problem-solving.
- My core stack is React, Next.js, Typescript, Node.js and MySQL. I am looking for an opportunity to join a dynamic and innovative team where I can contribute to the development of cutting-edge software solutions and grow as a professional.
